Missionary Work for Wheeling.
 The Special Natural Gas Industrial Edition of the INTELLIGENCER was more widely distributed than anything before that bore the name of Wheeling. Nothing has ever attracted so much attention to this industrial community and its facilities for manufacturing. Here in one among many requests received for additional copies:

THE VILLA, MARLBOROUGH, ENGLAND,
 October 19, 1886.

Gentlemen:—Will you please favor me at your earliest convenience with one copy of your paper, Tuesday, September 14, 1886, containing a supplement with 16 pages. As I don't know your charge for a single copy, I enclose you 50 in postage stamps. If not enough kindly let me know when sending paper; will then send you the full amount.

Yours faithfully,
 FRANK D. GREY.

Mrs. Frew, Campbell & Hart, Wheeling, W. Va.

The English postage stamp "don't go" in this country, but the INTELLIGENCER finds pleasure in sending Mr. Grey one of a few copies which it has been able to buy back at the selling price—about one hundred in all—and which have been and are being used where they may help the good cause. These papers were bought back to give away, and they have gone out in the missionary service.

If we all work—and all work together—we can increase the population of Wheeling and vicinity, and provide steady employment for our own people at good wages. Growth is what we want, and everybody will profit by it.

The Boycott in Politics.

The following appeared in the Register of yesterday. The first paragraph is from the evening organ of the boycotters, and then follow the Register's comments:

From the Evening Register.

The County Executive Committee of the Republican party did an act in informing Mr. Hart, of the INTELLIGENCER, that he was expected to take a back seat in tonight's G. O. meeting, and that his presence was not wanted in the conference of that party, that may have a telling effect in Tuesday's election. Hart has become so objectionable to the leaders of the Republican party here that numerous Republicans will change the defeat of Gen. G. O. should he be defeated, to Mr. Hart and refuse all future patronage to the INTELLIGENCER. This seems to be a sensible light in which to view the INTELLIGENCER's bad breaks against organized labor and many of our best citizens.

A POKER PLAYER'S RIGHTS.

Judge Brown Decides an Interesting Point in a Popular Case.

New York, Oct. 23.—Judge Brown, of the City Court, gave a decision this morning in a case that will interest all players of the game of draw poker. The suit was brought by Charles H. Maguire, a tailor, against Richard Meares, proprietor of the Hotel Royal, on Fortieth street and Sixth avenue, to recover \$100 which Maguire claimed to have placed in his hands as stakeholder. The plaintiff declared that in October, 1885, he went to the hotel, and at the request of the landlord joined a draw poker party. Mr. Meares was not one of the players, but when Maguire lost heavily he accepted the tailor's check to pay the winners with a few shillings later Maguire won, and the next morning he asked Meares for some money which he claimed to be due him, but was told by the latter that he knew nothing about it. Maguire then began a suit to recover what he had lost, on that ground that Meares was a stakeholder under the statute relating to betting and gaming. Judge Brown has dismissed his complaint with costs.

He said that the money was only handed to Meares after the loss was made. "The plaintiff's consent and direction were fully given, and the defendant, in complying with such direction, was a mere agent of the plaintiff to dispose of his money as he in October, and the defendant carried out the instructions."

PARADISE FOR STOCK.

Though the enterprise is yet in its infancy, he has already expended more than two hundred thousand dollars in improving the place and adapting it for the purpose named. An immense brick barn was erected at great cost, which, in addition to its capacity to hold hundreds of tons of forage, has a stabling capacity for a hundred horses. Four annexes are now in course of erection, each of which will stable thirty horses, and two additional stables are contemplated. These stables are very large structures. Some idea may be gained of their size when it is considered that each of the one hundred and twenty stables to be provided for will have a separate and distinct apartment, large and roomy, in which the mare may be turned loose and have plenty of space to "live in" with perfect comfort. The stables are heated and furnished with every modern convenience. A steam engine, situated in the centre of the grounds, furnishes the steam power that not only runs the machinery which cuts and mixes the feed in the barn, but forces water throughout all the buildings. A water pipe runs to every feed trough, by means of which every horse is supplied with water to drink at the same instant from two large running fountains. Colonel Fisher has already stocked the place with a 160 fine breeding horses. To attend to these mares properly requires a force of from thirty to fifty men regularly, while during the past summer seventy-five men have been employed on the farm.

Thirteen of the mares now on the ranch are "blooded" and are from some of the most famous race horses of the world. The celebrated race "Hambler" is now owned by Colonel Fisher. He is now famous, who departed this life a short time ago after a record made up of brilliant achievements on the race course, was also a resident of "Brigton Farm," as the Moorefield place is called.

MORE IMPROVEMENTS.

Col. Fisher is constantly increasing the extent of this great enterprise. It is a common remark here that the thousands of dollars already spent are but the beginning of the many thousands to be expended yet. Next spring will be commenced the erection of a forty thousand dollar summer residence for the young heir to the estate, who is now in his twentieth year. This residence will be supplied with water from a spring on the mountain two and a half miles distant. The construction of a fine race-track on which to train the colts for "professional life" is also contemplated. Who knows but that "when the railroad comes" this track may develop into one of the great courses of the country and rival Lexington, or even Brighton Beach in importance, becoming one of the national sporting resorts? Surely the owner of Brighton Beach could accomplish this if he chose to do so. This enterprise, which was conceived but two years ago, is a new departure for West Virginia. I learn that other horse fanciers are only waiting for the result of the experiment before deciding whether to establish similar farms in this valley.

I may add in this connection that after the death of her husband Mrs. Engeman married again—this time she became Mrs. Stebbins. Last Sunday Col. Fisher received the news of her death, which occurred in New York. He is at present in that city attending her obsequies.

Col. Fisher in politics is a Republican of the strongest type, and is the candidate of his party in the coming year for the Legislature. If he succeeds in defeating Captain Chipley the West Virginia Legislature will not only contain a man of progressive ideas and public spirit, but fiery courage will have taken the first important step toward the resolution which will place her where she naturally belongs—in the list of Republican counties.

OBJECT TO BE REPUBLICAN.

This valley ought to be Republican. Its very interest demands it. The people, I find, are beginning to understand the continuance of a protective tariff like the hope of their section of the State. Herefore they have not taken as kindly to the doctrine of protection as the people of the other section of the State. They are all along along to their ante-bellum free trade theories, simply from force of habit and because their eyes have not been opened to the fact that these theories have not been in accord with their best interests. Now they are thinking more. John W. Mason, F. M. Reynolds and General Flick have each in their campaigns taken pains to bring them face to face with these questions. With their iron mountain and their valley to the railroad to make the South Branch Valley a great manufacturing center, the cattle interests and all the other resources to be developed, there is every reason to believe that the valley and all the counties of this section should be in the hands of the Democrats. They are opening their eyes and ears to the truth, however, and in a very short time it will be no longer a question of the Democratic Party, but of the South Branch country to ask for an endorsement of a free trade record. Then the Second District will either send to Congress a Democratic or a Republican. Who are uncompromising protectionists.

I was in Grant county yesterday and heard Judge Zick address a large crowd in Petersburg. It was an enthusiastic meeting. In the language of a Democratic speaker, "the speech was a rattler." Republican leaders in Grant felt that the county will do honor to her name and give Flick a handsome majority.

There is much more to be said about this point but I will reserve it for another letter.

Special Correspondence of the Intelligence.

Berthany, October 23.—Yesterday evening Hon. J. B. Somerville and C. B. Turner, two politicians of Wheeling, drove out to a place known as Beck's School House, about ten miles from Wheeling, for the purpose of holding a Democratic meeting, but to their great surprise there were only six persons present to hear the issues discussed, two of which were voters. After staying until a late hour last night they departed.

COMMISSIONER'S SALE OF

OHIO COUNTY FARMS.

In pursuance of a decree of the Circuit Court of Ohio county, entered on the 21st day of September, 1886, in the case of the Plaintiff, John B. Lytle, vs. the Defendant, John B. Lytle and others, on

SATURDAY, NOVEMBER 13TH, 1886.

Beginning at 10 o'clock a. m. I will sell at public auction, on the premises, in parcels to suit purchasers, the tract of land situated in Highland District, Ohio county, known as the John B. Lytle farm, containing eighty acres, more or less, being the land conveyed to John B. Lytle and E. Virginia Lytle (his wife) by deed of said John B. Lytle, dated May 6, 1874, except twenty acres conveyed by said John B. Lytle and E. Virginia Lytle to J. F. Williams. I will first offer the individual one-half of said land belonging to John B. Lytle, and if the bid therefor is not sufficient to pay certain liens proven against it in said case, I will then sell the whole tract.

Also the adjoining tract of land known as the James Lytle farm, containing two parcels, which are described by deed and are situated in a plot of a survey the same made by F. L. Hoge, now on file among the papers in said case, the first containing 20 acres and the other 7 acres and 2 poles, running to Eleanor Lytle, during her life, and 20 acres and 2 poles of said land, during her life, her widow, in James Lytle's estate, said land described by deed and bounds on said plot.

Also 40 acres of a certain parcel of the same parcel, or so much more as the purchaser may elect to pay in cash, and the remainder in two equal installments, payable in one and two years, with interest from the day of sale, the payment of the different installments to be secured by deeds of trust on the said parcels of land, or by retaining the title until the payment of the purchase money is full.

I certify that bond has been given by the above named Special Commissioner as required by the statute in this behalf.
